

ESI CFD Mobile Remote Access Application

ESI CFD Mobile is an application that provides remote access to CFD-ACE+ core functions (CFD-View and CFD-GUI) through a simple, yet powerful interface. This tool allows engineers and managers to have handheld access to their ESI solutions anywhere. It is available for the Apple® iPhone™ and iPod® Touch platforms, running v2.0 or higher operating system.

The application provides remote visualization of Computational Fluid Dynamics (CFD) and access to solver metrics while the solution is running at a workstation. ESI CFD Mobile increases productivity by allowing users to access projects at anytime anywhere whether it is during a meeting, while traveling or when simply away from their desk.

ESI CFD Mobile application

FEATURES:

- Full 3D Views of Model
- Real-time Updates
- Innovative Model Viewing & Manipulation
- Simulation Process Control:
 - Start, Stop, & Monitor
 - Remote Access to Simulations

Visualization Services:
Requires CFD View v2009

- BENEFITS:**
- Ability to Manage Projects Remotely Through Constant Connectivity
 - Improved Communication of Information Through Visualization
 - Available in CFD-ACE+ and CFD-View v2009
 - iPhone Application Available Free of Charge

**Simulation Services:
Requires CFD GUI v2009**

**Monitor residual plot on device
remotely and in real time**

ESI CFD Mobile allows users to check on solver statistics or share results with colleagues. Users can interact with a simulation using the unique gravity interface with the built-in accelerometers of the handheld device. Real-time simulation updates are passed wirelessly to the user via cell phone or wireless internet connections, with available SSL encryption and VPN support.

CFD and multiphysics customers will benefit from an intuitive interface and remote access to their ESI solutions anywhere at any time. For more information please visit www.esi-group.com or contact your local sales office.

ESI CFD Mobile is available for iPhone and iPod users via the Apple App StoreSM.

Apple, the Apple logo, Mac, Mac OS, Macintosh, iPod, Multi-Touch, iTunes and Apple Store are trademarks of Apple.

About ESI Group

ESI Group is a world-leading supplier and pioneer of digital simulation software for prototyping and manufacturing processes that take into account the physics of materials. ESI Group has developed an extensive suite of coherent, industry-oriented applications to realistically simulate a product's behavior during testing, to fine-tune manufacturing processes in accordance with desired product performance, and to evaluate the environment's impact on product performance. ESI Group's products represent a unique collaborative and open environment for Simulation-Based Design, enabling virtual prototypes to be improved in a continuous and collaborative manner while eliminating the need for physical prototypes during product development. The company employs over 700 high-level specialists worldwide covering more than 30 countries. ESI Group is listed in compartment C of NYSE Euronext Paris. For further information, visit www.esi-group.com.
